LIGHTMATERIAL BUCKET LMB

The optimal geometry of the buckets let them be filled easily and be emptied quickly. There are also Heavy Duty Models for heavier materials such as compost and waste weighing up to 1200kg/m³.

High quality, robust body, reinforcements on the sides and under the bucket ensure a very long life. Cutting edge is made of HB 500 special steel. Grids in two rows on top of the bucket allow a very good visibility for the driver. The brackets for connection to a wheel loader are reliable and sturdy.

Available with wheel loader quick coupler and pin connectors. Option for bolted wearplate.

MODEL	LMB20-230	LMB30-250	LMB40-250	LMB45-275	LMB50-300
Wheel loader (t)	4-7	6-8	6-8	7-10	8-11
